REPUBLICAN  
GOMORRAH

MAX BLUMENTHAL

*Republican Gomorrah* is a bestiary of dysfunction, scandal, and sordidness from the dark heart of the theocratic forces that now have a leash on the party. It shows how those forces are the ones that establishment Republicans, like John McCain, have to bow to if they have any hope of running for president. More than just an exposé, *Republican Gomorrah* shows that many of the movement's leading figures are stained by crisis and scandal: depression, mental illness, extramarital affairs, struggles with homosexual urges, heavy medication, pornography addiction, serial domestic abuse, and even murder.

Inspired by the work of psychologist Erich Fromm, who asserted that the fear of freedom propels anxiety-ridden people into authoritarian settings, Blumenthal explains in a compelling narrative how a culture of personal crisis has defined the radical right, transformed the Republican Party, and set the stage for the future of American politics.

**Max Blumenthal** is one of the most constantly cited young liberal journalists in America. He is a correspondent for the *Daily Beast*, a research fellow for Media Matters, and a Puffin writing fellow for the Nation Institute. He lives in Brooklyn, New York.

**William Hughes** is a professor of political science at Southern Oregon University in Ashland, Oregon. He received his doctorate in American politics from the University of California, Davis. Bill has done voice-over work for radio and film and is also an accomplished jazz guitarist.
