

Richard Petty's AUDIO SCRAPBOOK

Seven-time NASCAR champ and seven-time winner of the Daytona 500, Richard Petty has been synonymous with racing for more than 50 years.

Known as the "King of NASCAR," he holds the career record for victories, Top 5 finishes, starts, and pole positions. The consummate race driver, Richard is respected by both competitors and fans for his demeanor on (and off) the track.

In this audiobook, "The King" has created an audio scrapbook that's a virtual time capsule of stock car racing's colorful past. Richard sits down with Hall of Fame announcer Barney Hall and shares numerous anecdotes of his legendary career—from the early days of bootleggers running on dirt tracks to the modern era of super speedways.

Featured in these volumes is insightful commentary from Richard's longtime crew chief, Dale Inman, as well as guest appearances by Lynda Petty, Junior Johnson, Bobby Allison and David Pearson, all sharing personal memories of their years in the sport. Also included are race calls from some of Richard's most memorable moments—including the dramatic finish of the 1976 Daytona 500, and his horrifying crash in the 1988 Firecracker 400.

Barney Hall has been broadcasting NASCAR races for more than 50 years. His familiar voice is like an old friend, welcomed into the homes of race fans each season. Known as "The Voice of NASCAR," the Motor Racing Network has featured Barney as the lead booth announcer since it first hit the airwaves in 1970. Barney's excellence in broadcasting was recognized in 2007 with both an induction into the National Motorsports Press Association Hall of Fame and NASCAR's prestigious Bill France Award of Excellence.

Dale Inman holds the NASCAR record for most championships won as a crew chief—winning seven of his eight titles with second cousin Richard Petty. From the first race in 1958 to the final race in 1992, Dale's unparalleled knowledge of racing strategy played a vital role in the dominance of the Petty racing team.

Running Time: 4 Hours • Unabridged
