

THE GREAT TENNESSEE MONKEY TRIAL

Starring Edward Asner, Mike Farrell and Sharon Gless

Taken from the original sources and trial transcripts

The definitive recording from our national tour of this fascinating docudrama! A compelling recreation of the infamous 1925 trial of young science teacher John Thomas Scopes which sparked the evolution vs. creationism debate that still rages today. You're a fly on the wall at "the trial of the century". Passion and controversy ignite at the 1925 "Scopes Trial". It's Darwinism versus religion-and 80 years later the issues still divide us. Based on the original court transcripts.
