

Information Doesn't Want to Be Free

Laws for the Internet Age

Cory Doctorow

READ BY WIL WHEATON

In sharply argued, fast-moving chapters, Cory Doctorow's *Information Doesn't Want to Be Free* takes on the state of copyright and creative success in the digital age. Can small artists still thrive in the Internet era? Can giant record labels avoid alienating their audiences? This is a book about the pitfalls and the opportunities that creative industries (and individuals) are confronting today. An essential read for anyone with a stake in the future of the arts, *Information Doesn't Want to Be Free* offers a vivid guide to the ways creativity and the Internet interact today, and to what might be coming next.

"Filled with wisdom and thought experiments and things that will mess with your mind." —Neil Gaiman

CORY DOCTOROW is a Canadian-born blogger, journalist, and author of nonfiction and award-winning science fiction. He is a contributing author to *Wired* magazine and coeditor of the blog *Boing Boing*. His works have earned him numerous awards, including several Prometheus Awards.

WIL WHEATON is an actor, voice artist, author, and award-winning audiobook narrator who has twice won the prestigious Audie Award, twice been a finalist for the Audie, and earned an AudioFile Earphones Award.
