

At the height of the Cold War, America's most elite aviators bravely volunteered for a covert program aimed at eliminating an impossible new threat. Half never returned. All became legends. From *New York Times* bestselling author Dan Hampton comes one of the most extraordinary untold stories of aviation history.

Vietnam, 1965: On July 24 a USAF F-4 Phantom jet was suddenly blown from the sky by a mysterious and lethal weapon—a Soviet SA-2 surface-to-air missile (SAM), launched by Russian “advisors” to North Vietnam. Three days later, six F-105 Thunderchiefs were brought down trying to avenge the Phantom. More tragic losses followed, establishing the enemy’s SAMs as the deadliest anti-aircraft threat in history and dramatically turning the tables of Cold War air superiority in favor of Soviet technology.

Stunned and desperately searching for answers, the Pentagon ordered a top secret program called Wild Weasel I to counter the SAM problem—fast. So it came to be that a small group of maverick fighter pilots and Electronic Warfare Officers volunteered to fly behind enemy lines and into the teeth of the threat. To most it seemed a suicide mission—but they beat the door down to join. Those who survived the 50 percent casualty rate would revolutionize warfare forever.

“You gotta be sh\*#@ing me!” This immortal phrase was uttered by Captain Jack Donovan when the Wild Weasel concept was first explained to him. “You want me to fly in the back of a little tiny fighter aircraft with a crazy fighter pilot who thinks he’s invincible, home in on a SAM site in North Vietnam, and shoot it before it shoots me?”

Based on unprecedented firsthand interviews with Wild Weasel veterans and previously unseen personal papers and declassified documents from both sides of the conflict, as well as Dan Hampton’s own experience as a highly decorated F-16 Wild Weasel pilot, *The Hunter Killers* is a gripping, cockpit-level chronicle of the first-generation Weasels, the remarkable band of aviators who faced head-on the advanced Soviet missile technology that was decimating fellow American pilots over the skies of Vietnam.

Lieutenant Colonel (Ret.) **DAN HAMPTON** flew 151 combat missions during his twenty years (1986–2006) in the United States Air Force. For his service in the Iraq War, Kosovo conflict, and first Gulf War, Col. Hampton received four Distinguished Flying Crosses with Valor, a Purple Heart, eight Air Medals with Valor, five Meritorious Service medals, and numerous other citations. He is a graduate of the USAF Fighter Weapons School, USN Top Gun School (TOGS), and USAF Special Operations School. A frequent guest analyst on CNN, Fox News, and MSNBC discussing foreign affairs, military, aviation, and intelligence issues, he has published in *Aviation History*, the *Journal of Electronic Defense*, *Air Force Magazine*, *Vietnam* magazine, and *Airpower* magazine, and written several classified tactical works for the *USAF Weapons Review*. He is the author of the national bestsellers *Viper Pilot* and *Lords of the Sky*, as well as a novel, *The Mercenary*.
