

Evoking the snowy seclusion of *In a Dark, Dark Wood*, the luxe environs of *The Woman in Cabin 10*, and the cutting-edge technology of *The Turn of the Key*, this highly anticipated sixth novel is the Agatha Christie of our time at the top of her game.

Getting snowed in at a luxurious, rustic ski chalet high in the French Alps doesn't sound like the worst problem in the world. Especially when there's a breathtaking vista, a full-service chef and housekeeper, a cozy fire to keep you warm, and others to keep you company. Unless that company happens to be eight coworkers . . . each with something to gain, something to lose, and something to hide.

When the cofounder of Snoop, a trendy London based tech startup, organizes a weeklong trip for the team in the French Alps, it starts out as a corporate retreat like any other: PowerPoint presentations and strategy sessions broken up by mandatory bonding on the slopes. But as soon as one shareholder upends the agenda by pushing a lucrative but contentious buyout offer, tensions simmer and loyalties are tested. The storm brewing inside the chalet is no match for the one brewing outside, however, and a devastating avalanche leaves the group cut off from all access to the outside world. Even worse, one Snooper hadn't made it back from the slopes when the avalanche hit.

As each hour passes without any sign of rescue, panic mounts, the chalet grows colder, and the group dwindles further . . . one by one.
