BEVERLY BONNEFINCHE IS DEAD KRISTEN SEELEY

Socially awkward, anxiety-riddled Beverly Bonnefinche only loves three things in life: her parents, books, and a homeless man named Bill. Without them, the only way Beverly manages to get by each day is with the help of a peculiar coping mechanism that allows her to dissolve her feelings.

Yet everything changes for Beverly when she meets Henry, a persistent, friendly man who sees something in Beverly most people have missed. As their relationship develops, despite her best intentions, Beverly soon finds herself stepping outside of her carefully controlled life and forging new friendships.

It's only when a series of twists and turns threatens to unravel her new life, and her mind, that Beverly must determine if she's got it in her to stop trudging through life—and finally start living it.
