

As I draw closer to the familiar trees and streams of my home ground, a prickle of fear runs up my paws. I move through the trees, sacrificing speed for stealth. . . .

Warm, a young wolf, lives with his family in the mountains. Warm is not the biggest wolf or the fastest, but he is the heart of his pack. When rival wolves attack and Warm's family scatters, Warm alone is left to defend and provide for the four youngest pups. Fearful and uncertain, Warm and the pups climb higher and higher into the mountains. Their journey is grueling, lonely, and full of danger, and they face hunger, storms, fire, and enemy wolves nipping at their heels. Will Warm have the courage to be the leader his pack needs when the fiercest enemy of all comes to challenge him? Will Warm and the pups ever find a place to call home?

A Wolf Called Fire is inspired by the real wolves of the American West, especially the extraordinary Wolf 8, who was reintroduced into Yellowstone National Park as a pup and later, against all odds, became a generous, brave, and successful pack leader.

ROSANNE PARRY is the author of several acclaimed and bestselling novels, including *A Wolf Called Wander*. She lives with her family in an old farmhouse in Portland, Oregon.
