

Reality Winner was a twenty-five-year-old translator for the NSA when she read a classified document revealing what she assumed would make headlines during a time of unprecedented leaking: Despite the Trump administration's denials, there had in fact been foreign interference in the 2016 US election. In a breach of NSA protocol, she impulsively printed the document, smuggled it out of the building, and mailed it to The Intercept, which published it and then promptly informed the NSA. For her crime, she received the longest prison sentence ever imposed on a government-affiliated employee convicted of a single count of leaking classified information and spent more than four years in federal prison.

Now, for the first time, Winner tells her own story: her unusual childhood in South Texas, with a brilliant but unstable father whose obsession with politics, ancient history, philosophy, and religion sparked her own interests in ancient civilizations and the study of foreign languages, including Latin, Arabic, Farsi, Dari, and Pashto; her patriotism after 9/11, which led her to enlist in the Air Force and join the NSA, where the work she did in the hope of protecting American security was part of the US campaign in Afghanistan; and, most movingly, her life in the American prison system and how it nearly broke her.

I Am Not Your Enemy is Winner's bold, brave examination of the moral choices that compel us to act, as well as an account of the risks one young woman took to protect her country and the price she paid for it. It is also a powerful argument for standing up for what you believe in during uncertain times—an inspiring message as relevant now as it was when she made her fateful decision.

A gifted linguist, devout patriot, voracious reader, animal lover, and fitness and yoga enthusiast, **REALITY WINNER** was a US Air Force veteran working at the NSA when she leaked a classified document containing revelations about the 2016 US presidential election. Today she is a CrossFit coach living in South Texas and studying to become a licensed veterinary technologist.
