From the pen of one of America's most challenging writers: Ron Rifkin reprises his Obie Award-winning role as a Holocaust survivor, now a venomously witty publisher, who begins to spiral out of control after his wife's death. He would rather sink his efforts into a six-volume history of Nazi medical experiments than publish anything remotely commercial. Isaac's "survivor-guilt" obsession threatens the future of both his company and his family – and ultimately himself.
