

Frederick Kempe BERLIN 1961

Kennedy, Khrushchev, and the Most Dangerous Place on Earth

Narrated by Paul Hecht

A fresh, controversial, brilliantly written account of one of the epic dramas of the Cold War—and its lessons for today.

In June 1961, Nikita Khrushchev called it “the most dangerous place on earth.” He knew what he was talking about.

Much has been written about the Cuban Missile Crisis a year later, but the Berlin Crisis of 1961 was more decisive in shaping the Cold War—and more perilous. For the first time in history, American and Soviet fighting men and tanks stood arrayed against each other, only yards apart. One mistake, one overzealous commander—and the trip wire would be sprung for a war that would go nuclear in a heartbeat. On one side was a young, untested U.S. president still reeling from the Bay of Pigs disaster. On the other, a Soviet premier hemmed in by the Chinese, the East Germans, and hard-liners in his own government. Neither really understood the other, both tried cynically to manipulate events. And so, week by week, the dangers grew.

Based on a wealth of new documents and interviews, filled with fresh—sometimes startling—insights, written with immediacy and drama, *Berlin 1961* is a masterly look at key events of the twentieth century, with powerful applications to these early years of the twenty-first.
